COLLAS CRILL

Collas Crill appoints Richard Mansi as Partner in Cayman

NOVEMBER 2026

Collas Crill has appointed Richard Mansi as Partner in its Cayman Islands office, strengthening the firm's corporate and funds offering.

Richard has more than 25 years' experience across the legal and financial services sectors, advising fund managers, financial institutions and investors on a broad range of investment fund matters, including fund structuring, fund finance, corporate transactions, fintech, hybrid products and regulatory issues.

His career spans leading offshore law firms and senior investment banking roles. Having trained and qualified with Linklaters in London, Richard went on to become a partner at Maples and Calder, where he led its London funds and fund derivatives practice. He subsequently moved into investment banking, becoming a Managing Director and head of a fund finance and derivatives structuring team at a leading European investment bank. He then returned to private practice in the Cayman Islands, playing a key role in developing and leading the funds practice at another successful Cayman Islands law firm.

Ellie Crespi, Partner and Head of Collas Crill's Caribbean corporate team, said, 'Richard brings an exceptional depth and breadth of experience to Collas Crill. His background across private practice and investment banking gives him a particularly valuable perspective on the challenges and opportunities facing clients across the corporate and funds sectors.

He understands the importance of building strong relationships and providing practical, commercially focused advice. We're delighted to welcome him as a Partner and look forward to the contribution he will make to our Cayman practice and the wider firm.'

Richard said, 'I'm delighted to be joining Collas Crill. The firm has a strong reputation and a clear commitment to delivering practical, commercially minded advice while building lasting relationships with clients. I'm looking forward to working with the team and helping clients navigate the increasingly complex corporate and funds landscape.'
